The Concept of ICE

We all carry our mobile phones with names numbers stored in its memory but nobody, other than ourselves, knows which of these numbers belong to our closest family or friends.

If we were to be involved in an accident or were taken ill, the people attending us would have our mobile phone but wouldn't know who to call. Yes, there are hundreds of numbers stored but which one is the contact person in case of an emergency? Hence this "ICE" (In Case of Emergency) Campaign.

The concept of "ICE" is catching on quickly. It is a method of contact during emergency situations. As cell phones are carried by the majority of the population, all you need to do is store the number of a contact person or persons who should be contacted during emergency under the name "ICE" (In Case Of Emergency).

The idea was thought up by a paramedic who found that when he went to the scenes of accidents, there were always mobile phones with patients, but they didn't know which number to call. He therefore thought that it would be a good idea if there was a nationally recognized name for this purpose. In an emergency situation, Emergency Service personnel and hospital Staff would be able to quickly contact the right person by simply dialing the number you have stored as "ICE."

For more than one contact name simply enter ICE1, ICE2 and ICE3 etc. A great idea that will make a difference! Let's spread the concept of ICE by storing an ICE number in our Mobile phones today!

Please forward this. It won't take too many "forwards" before everybody will know about this It really could save your life, or put a loved one's mind at rest, Please send this to your near dear ones.

Federation of Engineering Institutions of Islamic Countries (FEIC) Meeting at Makkah, Saudi Arabia on 9th May-2014

Experts and heads of 21-members of Federation of Engineering Institutions of Islamic Countries (FEIC) met in Makkah. The meeting was also significant in view of the massive developmental projects being currently undertaken in the on 9th May, 2014 Kingdom's key cities. "The participants in the meeting discussed the standardization and adoption process of professional accreditation systems in the Kingdom and in the participants' respective countries. A team of experts comprising from Malaysia, Jordan, Egypt, Pakistan and Saudi Arabia was formed under a project called "Engineering Qualification, Accreditation and Professional System (EQAPS)." The meeting also because a part of a series of meetings initiated for the purpose of standardizing the accreditation system in Islamic countries to help engineering graduates attain recognition. "Aside from recognition, there is also need to facilitate mobility between member-states and help the graduates practice their engineering professions with ease". The meeting was headed by Prof. Megat Johari of the Malaysian Society for Engineering and Technology, adopted the recommendations issued during a meeting in Madinah in Dec. 2013. "The Madinah Accord is expected to improve the professional level of engineers in member countries and enable them to receive international recognition," On the sidelines of the meeting, the FEIC executive council agreed to form the Young Engineers Group to motivate and strengthen professional relations among the Islamic countries' young engineers. A number of other topics were discussed during the meeting, including strengthening fraternity ties with international engineering organizations. Mr. Mohammed Zhgoul attended as an honorary guest representing Iayed Madani, Secretary General of the Organization of Islamic countries (OIC). Mr. Hamad Nasir Alshagawi the federation's president chaired the meeting. Mr. Ibrahim Aldhobaie, executive council member and deputy Secretary General of the SCE, commended the formation of the Young Engineers Group, which he considered a "milestone in the FEIC activities and a move in the right direction." He also urged Saudi engineers to respond to this initiative and participate in establishing a branch in the Kingdom. Engr. Sohail Bashir, Chairman, International Affairs Committee, IEP attended the meeting.
